

Indicative Exhibition Layout

A planning guide to the possible exhibition and meeting areas. This is not an approved scaled floor plan.

Important planning information

Planning period: 24–27 May 2027. The provisional build day is 24 May; exhibition activity is provisionally planned for 25–27 May. Magazine London is the proposed venue, not a confirmed booking. Opening hours, visitor access and final operational arrangements will be published once approved.

Possible visitor areas

- Energy exhibitors displaying products and services
- Dedicated City Energy Projects presentations and displays
- The Project Room for approved discussions with relevant companies
- Conference and technical discussions, where confirmed
- Visitor services, access routes and organiser information

Stand locations are not confirmed

No specific stand, hall area, footprint, venue capacity, gangway, public exit or accessible route is guaranteed by this document. A final drawing must be issued after the venue contract, emergency arrangements, organiser allocation and operational approvals are complete.

What exhibitors should request

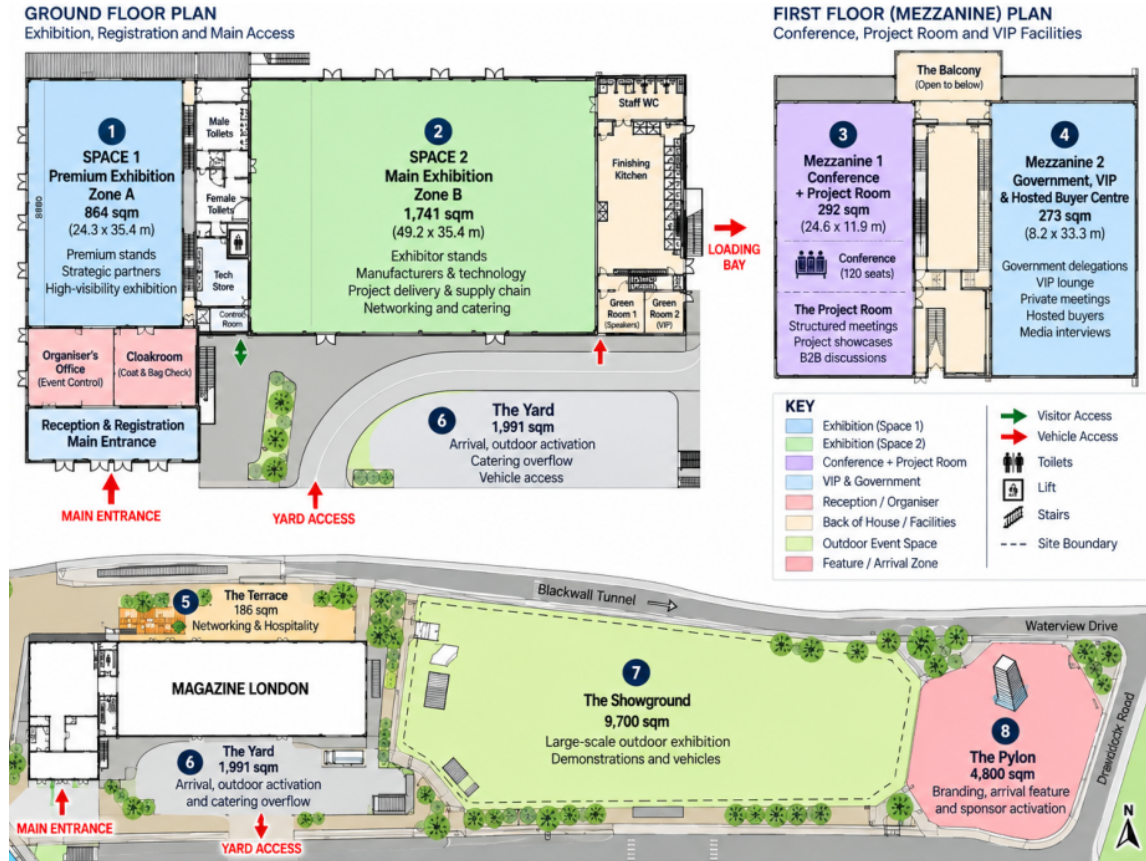

- A written offer showing the stand identifier, size, price, services and payment terms.
- The current scaled stand plan and operational manual approved for the venue.
- Confirmation of loading access, power, internet, build and dismantling times.
- Clear cancellation and change-control provisions.

Enquire about space

Request current exhibitor options through ukiee.com/exhibit/. Any earlier layout, stand number or allocation should be treated as superseded until confirmed in writing.

Visual reference: indicative area arrangement

Not a confirmed venue plan or stand allocation. This cropped historical layout illustrates how display, conference and meeting spaces might relate. All areas, measurements, exits and uses must be reviewed against the agreed venue plan.

Conceptual layout reference only. Do not scale or use for purchasing, accessibility or fire-safety decisions.
